

SECTION A-A

Cutting edge per customer requirements. Typically anywhere from a sharp edge up to a .005" radius.

Custom edges with other radii are also available.

ID tolerance per customer requirements.

WEB PRINT

Circular knives are heat treated, to a hardness specified by customer requirements.

Our circular knives are typically manufactured using 52100 steel, but are also available in other tool steels such as D2 and M2. Other materials are also available for quote.
